28 February 2018: ASX Company Announcements Platform

FirstWave announces first international reseller partnership

FirstWave Cloud Technology Limited (ASX:FCT) (“FirstWave”), leading Australian cloud security technology company, announces that it has signed an international reseller partnership with Mind Flow (M) Sdn Bhd, one of Malaysia’s leading managed services providers and a recognised Malaysia Status Company (MSC).

This is FirstWave’s first international reseller partnership and the agreement includes the company’s FirstCloud Mail product bundle on Amazon Web Services (AWS) and its standalone platform solution. The agreement has immediate effect.

Neil Pollock, FirstWave Chief Operating Officer and Head of International, said: “FirstWave is looking forward to partnering with a company with the heritage, experience and insight of Mind Flow. This partnership enables FirstWave to offer our publicly available ‘FirstCloud’ email as well as project based platform roll outs to Mind Flow and their customers, and it creates an important precedent for future partnerships in domestic and international markets.”

“This is an important milestone for FirstWave as we continue to make solid progress against our international strategy, launched to the market in October 2017. It comes shortly after FirstWave’s launch of its public platform across North America and Asia Pacific and the appointment of Shekila Ramalingam, VP Business Development.”

Mr Haji Mohd Yusof Kadir, Managing Director of Mind Flow, said: “FirstWave’s technology has attracted interest across the spectrum, from Malaysia’s large and small to medium business segments, so we are excited to be bringing FirstWave’s market leading technology to Malaysia and making it available to our valued customers. We are looking forward to working together.”

About FirstWave Cloud Technology

Australian cloud technology company, FirstWave, operates a technology business in the burgeoning cloud based IT managed security services market, having created an intelligent carrier grade cloud security platform for business. FirstWave has delivered Security as a Service (SaaS) solutions since 2004 in a form similar to what we call “cloud” today. FirstWave offers a comprehensive cloud security and analytics technology solutions suite that, along with advanced mail, web & next generation firewall (NGFW) content controls, now offers unified, integrated x-threat vector advanced malware protection technology solution for any business or enterprise moving to or operating in the cloud.
