

30 April 2019: ASX Company Announcements Platform

## Share Purchase Plan strong demand raises \$1.25 million

### Highlights:

- **FirstWave successfully raises \$1.25 million from the Share Purchase Plan (SPP) offer**
- **Original \$500K target oversubscribed with strong demand from existing shareholders**
- **This additional SPP funds provides FirstWave with extra capital to continue execution of international expansion, support existing customers and strengthen partnerships with existing Global Security Vendors and Systems Integrators**

Leading Australian Cloud Security technology company, **FirstWave Cloud Technology Limited (ASX: FCT) (FirstWave or Company)**, is pleased to announce the successful oversubscription of the Share Purchase Plan (SPP) offer to \$1.25 million. Originally targeting \$500K, the SPP received significant demand and was strongly supported by **existing shareholders**.

The SPP closed at 5.00pm (Sydney time) on Thursday 18 April 2019 and follows the successful completion of the Company's placement to raise \$6.5 million, as announced to ASX on 26 March 2019.

The SPP closed oversubscribed, with valid applications received totalling \$1.25 million. In recognition of the strong show of support by shareholders, the Board has determined to exercise its discretion to accept all valid applications without any scale back. The additional funds raised will provide increased capital to drive international markets to accelerate the move into the monetisation phase of the Cisco OEM, the NTT Data UK and SHELТ agreements.

The Company will issue approximately 4.5 million new shares under the SPP at an issue price of \$0.28 per share. The new shares are expected to be allotted today and commence trading on ASX on 1 May 2019.

FirstWave CEO, David Kirton said, *"We thank our existing shareholders for their continued support of our strategy. The oversubscription of this offer shows the strong investor interest in FirstWave and its cloud based cyber-security solutions."*
